They did not participate in the RFP, which the Trading Company MUST complete to be Trade Compliant.
Anything purchased will not be credited to your sales and will not be used towards potential rebates.
We wish them continued success for the 3-year RFP

Titan Environmental Containment Ltd also is no longer a Trading Company Official Supplier.
They chose not to compete in the RFP, despite our assurances that they could continue business as we had been for the last few months.
Anything purchased will not be credited to your sales and will not be used towards potential rebates.
We wish them continued success as well.

Please remember - the Trading Company MUST complete the RFP process in any category that has over 75,000.00 in sales to ensure we are Trade Compliant with CFTA and the NWPTA.

We have now completed all RFP's required by the new regulations in all categories.

What does this mean for you? ALL companies in each category had the opportunity to compete in the RFP. Each will have a designated Official Supplier for AMM members. There may be more than one supplier in each category. YOU are no longer required to complete RFP's as we have done that through this process. You can be assured that you will get great pricing, great service, increase your potential rebates and continue to support your Trading Company which allows us to offer you a variety of cost-savings for your ratepayers.
