Cybersecurity Audit Service

bloom software

Business Solutions
Powered by Microsoft 365

Cybersecurity is increasingly important, and the cost/impact of a cybersecurity incident continues to rise. A cybersecurity assessment allows organizations to identify areas where

they are weakest, and provides a clear roadmap to addressing the risks and gaps that could be exploited and cause a significant issue.

AMM has negotiated an agreement with [Bloom Software Co.](#) to offer cybersecurity audits to AMM municipal members.

Bloom's assessment model addresses the key areas that are of greatest concern, discusses and defines them in plain language, and provides organizations the ability to make informed decisions about their own priorities to set an implementation plan.

[Upcoming Workshops & Events](#)

[Course Catalogue](#)

The launch of these workshops comes at a great time, as the Canada-Manitoba Job Grant program started accepting applications for 2023-24 on August 21st.

The Canada-Manitoba Job Grant supports employers with funding the cost of training for new and existing employees. Eligible organizations may have up to 75% of costs covered (up to \$10,000 per individual participant) on training provided by approved third-party trainers.

All of workshops offered through People First are eligible trainings that can be covered by the funding support of the Canada-Manitoba Job Grant program. More information on the program and eligibility can be found here: [Canada-Manitoba Job Grant](#)

If you have any questions or would like to explore [custom learning and development opportunities](#) for your organization, please feel free to connect with **Linda Chammartin** lchammartin@peoplefirsthr.com for a conversation.
